(universally agreed upon, unified, uniform education)

"Education is life according to great minds with the purpose of great aims."

Nietzsche

On the future of our educational institutions

Our natural identity as universal humans, has widely been lost, systematically covered or replaced with a limited identity being formed within our beloved children. Installed from an early age is a nationalistic identity, bordering almost on sectarian if not sectarian in itself, then incorrect empowerment/education (because that education all too often has been without authentic experience and cognition of the higher states of consciousness) is given to the child, resulting in, an intellect which then serves the limited identity, the result of this is and always has been some form of violence, from the petty thinking negative on others, right up to the extreme and dangerous actual physical harm, wars and armed conflicts.

Necessary it is again for again to be known the "Harmony origin" of all creation, all humanity, all true religion, true science, true knowledge, true esoteric, true theology, safely through practical scientific philosophy education removing all political divide, unifying all branches of philosophy in the world already known to the true enlightened guides, geniuses, thinkers, philosophers, thinkers, scientists, prophet's and messengers, men and women of wisdom,

“The archetype of harmony is the highest subject of teaching, only by which the just and the other values become prosperous.”

Plato

Realizing the false Intellect has been serving a limited identity has caused such a crisis in the world deemed so important that it became a UN Agenda, UNESCO Strategy, U S E establishment and the World Philosophical Forum implementation to correct this.

Earth XXI Citizenship

U S E-UNO (UNESCO) Global Citizenship fostering program

Now you may begin to have that ahha! moment

“On the path to discovery, the intellect has little to do.
There is a leap in consciousness, call it intuition or whatever you like, and the solution comes to you, and you do not know how and why.”

Albert Einstein

A natural higher world new century/XXI/21st civilization identity.

Because to continue with the limited identity of a fractured humanity, with harmful, detrimental side effects to an otherwise safe, joyous, prosperous evolutionary human adventure with unified virtuous protection of our species, many species and even our planet, as this previous dividing universal design that is intrinsic, and cause has been the rise of social dementia, a myriad of ideologies, intolerance, exclusion on the incorrect basis of the real identity theft on our planet (our natural universal cosmic harmony identity/our natural Earth/World citizenry. In exploitation, slavery, lust for power, greed of money, Individualistic mentality/selfishness, has for humanity and our world reached breaking point.

Maturity in Wisdom

Introduction:

Quote: "Maturity in wisdom is the being with an ability to unify appropriately all other realities into the highest reality, Harmony". Muhammad Jeseus Chrishna.

Why New world Harmony/Earth XXI citizen civil education is needed for Life.

"An absence of a discipline free from being too rigid of ignorance, an education without noospheric knowledge, supraglobal understanding, correct civil knowledge, supra-faith, supra-values, supra-experience and supra-understanding. A life in which we thrive and trust (A life worth experiencing for all humanity):

If real unknown territory is entered, it may be necessary the structure of thinking must change, in order to penetrate the new.

The world with a limited identity in past has produced many a stunted person without wisdom's intuition, wisdom's harmony and thus, wisdom's eternal reality. love/A universal humanity of self realization. A lost contact with inner vision of the Universal State of Earth; A person whom is contracted, perhaps full of frustration, anger and fear, doubt and unknowing, selfish. Individualistic and all too often, arrogant in such mentality error and error of consciousness; someone who is difficult to manage and refine, fit for moral treason and of which, many became even a citizen of a fractured humanity, fit for treason of the highest natural State - Universal State of Earth".

(few of humanity whom know the natural New World Harmony, Humbly do call to the many, to understand the inner will for such and unify in the new formation. Like the butterfly emerges from the caterpillar)

Look at the Global Case Study of our world to date for evidence. Necessary now, is?. The change! To be or not to be?

"It is not the strongest, the fittest, or even the smartest, but it is those most adaptable to change whom will always survive" Charles Darwin

Part 1:

Knowing others by having lived in their world and transcended or entering their world, knowing yourself and holding onto the highest reality and then bringing them safely to the highest reality. A New World Harmony.

During the early years of education/reeducation, close attention should be paid to every one. groups should, if possible, be kept small (requiring many new U S E Civil Servants/XXI Civil Teachers/XXI Civil Educators/minimum of 2.

(one WPF civil educator and one U S E Civil educator) to every organization).

Take care to observe individuals of/and group progress, encourage socialistic mentality, cosmic identity, and to note any method that works for engaging the (student/now or future Earth XXI Citizen's) attention and interest.

A key to getting to know a student lies in the goal of Maturity of wisdom, the ability to relate to other realities than one's own. When adults make the effort to set aside our adult agenda (but with awareness of nature and the power of nature and its natural will), and enter the a child's/student/persons world, several things happen: 1) we model the very goal of maturity that we hope to lead them towards, 2) we gain access to the subtleties of how the other functions, and 3) in a child's case, we often give ourselves the chance to re-connect with the soul-refreshing vibrations of childhood's innocence and creativity.

Entering their world: - helps us to set aside our personal agenda (if any) and become aware of the child/student's/persons personal world,
(work on their environment if needed)

Key areas,

(may be expanded upon civically/spiritually/with practical scientific philosophy)

*building willpower (of the now/or future Earth XXI Citizen).

*Choosing Happiness (of the Earth XXI Citizenship/New world Harmony).

*Cultivating courage (of the now/or future Earth XXI Citizen).

*Expanding sensitivity (of the now/or future Earth XXI Citizen).

*Living Truth/wisdom (of the Universal State of Earth).

*Practicing Peace.

*Working with others.

*Identity

Personal development - provide opportunities for students (now/or future Earth XXI Citizen's) personal growth, (civil programs).

Understanding people - provide true civic knowledge historically and of current events, as well as in the lives of and to those personally involved with your child/students/persons (now/or future Earth XXI Citizen).

Cooperation - help your students (now/or future Earth XXI Citizen's) explore the dynamics of true human civil interaction.

Self expression and communication - help your students (now/or future Earth XXI Citizen's) develop the mental clarity and the ability to communicate their insights effectively to others. Thus Increasing the Earth XXI Citizenship/U S E Establishment.

Our earth - our universe, explaining the true manifest within nature, and helping them have a relationship with nature. (harmony with nature)

Wholeness - what you relate always must be in the way of true lasting happiness and ultimate fulfillment. Especially through the arts, literature, philosophy and religion for some, attaining high spirituality/transcending religion. self realization.

Stage 1: Awaken Enthusiasm

Builds on people's love of play
Creates an atmosphere of enthusiasm
Creates opportunities for involvement
Overcomes passivity

Prepares for more sensitive activities
Develops rapport between participants, leader, and subject
Provides direction and structure

Stage 2: Focus Attention

Quality: Receptivity

- Increases attention span and concentration
- Deepens awareness by focusing attention
- Positively channels enthusiasm generated in Stage One
- Calms the mind
- Develops observational skills
- Develops receptivity for more sensitive nature experiences

Stage 3: DIRECT EXPERIENCE

Quality: Communing with nature

- Fosters deeper learning and intuitive understanding
- Inspires wonder, empathy, and love
- Conveys a sense of wholeness and harmony
- Promotes personal revelation and artistic inspiration
- Awakens an enduring connection with some part of nature

Stage 4: Share Inspiration

Quality: Idealism

- Clarifies and strengthens the perception of personal experience
- Increases learning
- Promotes positive peer reinforcement
- Encourages idealism and altruistic behavior
- Fosters group bonding
- Expands awareness to others
- Provides feedback for the leader

Note, Academic levels may be developed, also mentality and consciousness checks added. Progressive development spectrum, assessments, activities, curriculum/introduction of U S E, practical scientific philosophy, aid spiritual, organic and holistic understanding. Supporting inspiration, encouraging reflection, praise, reward, consequences, observation, connection, discovery, behavior, intervention, interaction. Health, even mindedness, integrity, conservation, contentment, appreciation, positive approach to life, sincerity, will power, concentration, attentiveness, sharpening the mind, introspection, memory, healthy imagination. Creativity. Intuition, body, feeling, will and intellect, reason, morality, justice, global responsibility. Harmony, maturity. Successfully bringing them to the highest reality, and New World Harmony, (together with 3 stages of WPF-U S E Development) for,

Universal State of Earth.

In order to see the world clearly, we need to free ourselves from mental and emotional turbulence. A calm mind and an open heart act like still waters to convey a pure reflection of the wise nature.

All of the above shared correctly should naturally result in expanding awareness,
Note you may also identify 3 stages of evolution.

*Contractive ego/individuality's active stage.

*expansive ego/individuality's active stage

*socialistic and Universal Light Stage,
obviously giving emphasis to the goal.

Part 2: Supporting Growth by Assessing Student Consciousness, WPF President put forward, Mirror of my soul, Universal Diagnostics tool/check. For the Earth XXI Citizenship.

Adding to this, A person even from young age has a natural need to feel secure within boundaries already known to us. Fortunately for our own development, we also feel an inherent need to expand those boundaries, even though gradually, as we sense in ourselves the capability to push them outward (fostering this is wise).... The human must be allowed to expand their understanding at his own pace. Of course be encouraged, but never forced, in this direction by XXI Civil Servant/Teachers.

Humans behavioral patterns often identify them to 4 levels of consciousness, naturally Universal XXI Citizenship aims at the 5th Level (and beyond) of consciousness. Releasing humans from a past self imposed contractive prison of pain, to ever new found freedom of the vistas of happiness and joy.

Regarding stages of evolution mentioned before and change from individualistic to socialistic.

Examples,

1st stage, Contractive ego/individuality's active stage. To be recognized as among the best. wanting to achieve a good level of professional status and profit.

Note (may be dangerous if not in harmony with law of nature, more wise if for the benefit of all humanity)

2nd stage, expansive ego/individuality's active stage.

Beginning search for personal growth, beginning to grasp our potential needs not be confined to the spheres of competition and commercial interests with their emphasis on material and personal gain. Instead, focusing on activities social therapeutic and educational pursuits. Transmit to others well-being, transmit good values, help educate a new generation capable of improving our society and creating a better world.

Onward and upward,

3rd Stage, socialistic and universal light stage.

Subsequently personal growth evolving into a path of spiritual and philosophical/love of wisdom/harmony enlightenment. Communion of feeling, opening of hearts, expansion of consciousness, connection with nature and the cosmos. Self awareness.

Remaining in a deep state of connection. Centering in peace, allowing teaching pass through deep channels, communication from consciousness to consciousness and sharing of a higher world harmony. Inner vision.

Naturally Developing in students, Earth XXI Citizens, Earth XXI Civil Servants/XXI Teachers, Aristocrats of the Earth XXI/Global leadership development, and in Citizens of the Universe XXI/We World Leaders, must also have Sensitivity, Expansive thinking, Truthfulness, and Courage.

What is a leader?

One whom knows the way,

Goes the way,
and shows the way.

Part 3: Choosing the universal unified uniform civic education to meet everyone's Needs and all things U S E. through being and doing and higher consciousness cognition, through creativity and through to harmony, highest state of consciousness. ((practical scientific philosophy)

Part 4: Cooperating with Natural Law to Learn from Life.

Our Education should be a means of encouraging, not of forcing, the development of wisdom. It should work with Nature in its inherent system of punishment and reward, and not protect earth inhabitants from the consequences of all their mistakes. At the same time, it should try to ease them into the discovery of these consequences in such a way that they don't lose heart, but come to realize that such, simply, are life's realities. Now adding In, loving creation and successful establishment of the Universal State of Earth, to bring fruit to all that natural heart! and transcending past outdated centuries gone past mentality and consciousness. Naturally into the highest reality, Whereby in this New world Harmony,

Why should we be honest, and not dishonest? truthful, and not untruthful?
self-controlled, and Not self-abandonment?, A Universal supranational Citizen of the World/Earth XXI, and not just citizen of old fractured nations of fractured humanity.
be concentrated in our thinking, and not scattered? Universally united, peaceful,

caring, kind, and not callous? cooperative, and not over-competitive? Why? Not just because anyone holds out these expectations of us, but simply because the positive side of each of these equations gives us, in the end, what we really want from life.

It isn't scripture, or the government, or society, or anyone's personal convenience that dictates our need to live rightly. Natural law itself — the law of our own being — is so set up that only by harmonizing ourselves with it can we, in the long run, find our real needs served — even for the benefit of all life's needs. But refusal to harmonize ourselves with that law invariably proves disappointing to us in the end. Sure this is what makes wrong action wrong in the first place. It is culpable, not before the eternal origin, nor before the law of the land, nor before our fellow human beings, but before the inner court of own self- awareness.

The deeper applications of universal XXI and Earth XXI civil Education, (and all of the above) take place as we come to the realization that all of life is enfolded in one, universal flow of Natural Law. Each one of us, adult and child, is constantly being offered the opportunity to take our next step toward (for some) expanded consciousness or, in this a classic philosophy meaning (love of wisdom, and title I gave to this writing, next step toward "Maturity of wisdom". (Living this) Our loving natural will as New Earth XXI Civil teachers/Earth XXI Citizens, New World Leaders, is simply to acknowledge this process and offer our support/guidance. to students/earth inhabitants (now/or future Earth XXI Citizens) as they take their next wiser steps together, with the lovingly offered, next step of Evolution of our world.

Universal State of Earth
Supranational

Part 5: A Loving Conclusion.

Thus, it is one and many hearts hope and humble appeal to mankind for just a little more understanding. For the Individualistic quest and concerns for life/or rather Individualistic attempted survival? Yet through old ways, Old worries, old

corruptions, old ignorance's, old arrogance's, old mentality. and old world order views without stepping up to the current XXI century higher reality, The Universal State of Earth (U S E),

I am sure you would agree this old outdated past Be laid to rest?, is your answer yes?

Know It's only good is for another new museum. (showing such fact).

In favor of the new current Now, I hope some day all may join us, so the world may live as one, With the Universal wisdom again, With the realization and Understanding. This is truly how anyone will not only survive but thrive.

Thus, Isn't it wise for nations, Cultures, Traditions, People's of faith, Religion the world over, Organizations, Community's of the one community of humanity.

United civilizations become the United Humanity, Say yes!.

Not just looking with eyes of wisdom, but Seeing again with the eye of the soul, and all humanity Experience this for themselves? Is your answer yes?

Then Perhaps.

You yourself again see clearly the beyond all, and through all deeper message and origin and thus now find true meaning. A Life of higher purpose? Earth XXI Citizen, Do you want this?, Soulful, wise, loving, caring, Honourable, noble way which is universally unified, universally recognized and agreed upon. A New World Harmony?

If you haven't already joined the Earth XXI Citizens?

Will you now step up, to the Universal State of Earth, Yet with the Self Realization, On unified universal level?. Supranational.

Not for selfish glory, individualistic power or Individualistic greed. But supra-glorious glory of/to and with the highest, in the very aid to all humanity and all life on Earth, Not individualistic! But lovingly Supra-socialistic,

Because: Even in the old era of the United Nations,
we have had a problem with the aforementioned Individualistic mentality,
Of certain individuals of certain nation's and these nations citizens.
As Such, for the mature in wisdom The solution is known.

UNIVERSAL STATE of EARTH

Universal Constitution of Earth

<http://glob-use.org/eng/use/pap/constit.htm>

The New Era of the U S E, XXI. The Supreme council of Humanity and ALL EARTH XXI
CITIZENS the world over, join in Growing the New World Leadership,
New Global Leadership elect, Fostering Global Citizenship/Earth XXI Citizenship.
With full establishment of the U S E and all Supranational State Civil organs/bodies,
(U S E) XXI era Institutions. Even New World Harmony U S E Supranational State
banking and currency. The Tero. (1 universal currency which all other currencies
naturally evolve into)

Unity of humanity on higher/highest level.
Ready together to be the wisdom of change?,

It is important to remember We can not, nor have any wish too force others,
Bang on people's heads like those of yester-centuries mentality and consciousness,
perhaps unbeknown to themselves (until now) in your? attempts to force convert
others, "forced conversion is violence",
wisdom says, "you each are not only responsible for that what you do, but for that
which you do not do also" thus, this is full responsibility returned.

Beloved friends, beloved humanity, No matter how often a frustration (effect) of the
immature in wisdom ones may even attempt raise such a frustration within us
(cause), the outside influence. Peace of this New Era, our current inner of us (the

wise) must be more powerful. (positive cause and effect)

Beloved humanity, we only set the mature and wise example and appeal to all humanity, for more understanding. Our humble hearts open opportunity to partake in the advantage to this is path we walk, Truly rewarding peace and happiness in this ongoing experience in our lives, which may also be in theirs/yours, as we all bring benefit to all life on this bright blue green planet we live on.

The disadvantage to this is,

Those of humanity in ignorance of all I have mentioned and as outlined in the Universal Constitution of Earth.

Sadly push themselves and the world closer to a breaking point,

Yet,

We remain great of Supra and invite you too (if not already) . into Maturity of wisdom, morality, reason, justice. A Humble yet Empowered wise humanity of the Universal State of the Earth (U S E). Earth XXI. New Era, New World Harmony.

Even perhaps we are those of supra-faith as faith is also Universal. Though it is wise to note (faith) it is not the natural highest. Speaking from experience, Growing the fig tree is wonderful, but if never actually flower the tree. How may one tastes its produce. Now is the time of the great final push/peaceful transition. (Establishment of Universal Sate of Earth) also you may Experience of the eternal wisdom is greater than only faith in/of the eternal wisdom. Faith Searches, the intellect finds, Yet faith continues to search for what the intellect already finds.

Thus, the true self realization, point of loving transition has come. The actual being and doing of the solution to mankind's gravest dangers. Earth XXI Citizenship.

To all people of faith, If Faith of yesterdays fractured humanity religiousness does

not join with the intellect and experience of the Universal being or even being that of the new current higher world citizens of the Universal State of Earth.

Faith will be left just on watching,

Or worse yet, still searching for what? the experience that we of intellectual and universal being through experience have already found within us,

The Universal being! through love of wisdom from wisdom itself.

Maturity of wisdom. Higher world Harmony and its opportunity to free all humanity.

Thus we the people of, appeal to all. for we of the light of wisdom, are wise in experience (so surly this is your appeal too?) in understanding that the darkness/ignorance of the past arrogance's has no power over the light of wisdom of all eternity. The natural evolutionary unveiling/establishment of the Universal State of Earth.

Please, lets make a loving walk together? in the New World Harmony. We all live under the same Day Star/Sun, the same moon and stars and all on this same bright blue green planet we live on.

Realistic solution,

(WPF University and Socratic Philosophical School Civil educators)

Be you a true XXI Teacher? USE Civil Servant/civil educator.

or Guru as termed in Indonesia for we teachers.

Guru in sanskrit. actually means, Gu, of darkness. Ru, into light,

Or rather, one whom dispels the darkness of ignorance with the light of wisdom.

Any true teacher/philosopher is such. A true friend, true man, messenger of wisdom.

I am because we are, in need of such to save our species.

<https://www.universal-state-of-the-earth.com/wpf-earth-xxi-citizen-teacher-progr>

Is a Global initiative to not only aid all of the above, written in this humble heart work, but to also give opportunity of financial benefit to any whom take the

initiative. (creating civil servants helping the higher better world future for humanity and life on planet earth, quicker)

Realistic and practical solution to help humanity,

One WPF Civil Educator and one U S E Civil educator minimum to all areas of current society in all, primarily in all Civil sectors, educational institutes, universities, academy's, college's, high schools, primary schools, kindergartens, having learned the civic education, teach it, WPF Civil educators recruit Earth XXI Citizens, U S E Civil Educators teach and recruit other Global leadership, rapidly expanding the U S E Earth XXI Citizenship, and new U S E global leadership

Upon each of these facilities having learned the civic knowledge and with recruits forming of higher world civil service, XXI Citizens. Supranational Civil registration should be then encouraged. joining and forming higher world supranational state organs, supranational state bodies organizations and offer their services, (for example in natural resources, technology, state buildings, facilities, platforms etc

“The Universal State of Earth truly is open to all humanity”

A New World Harmony

To be? Or not to be?

In doubt?/following the sower of the seeds of disbelief?

let us take an analogy to help us, Like this.

You can walk into a room full of darkness, and spark even the smallest light and Instantly the darkness flees, But you can not do the opposite, A room full of Wisdom, Light of the eternal, and no matter what!, No matter How much darkness anyone may try gather, they can not walk into that room and extinguish such light.

Love, Truth, Wisdom

Thus, as those whom may refuse to upgrade their mentality, consciousness and citizenship through Earth XXI Citizenship, that mankind may push themselves closer to the edge of global catastrophe or through individualistic mentality to individual breaking point. sink or swim, to be or not to be?.

They may only just but succeed in forcing themselves in their ignorance to change. and those whom stand by and do nothing or do what supports such ignorance. shame on them. It is not wise to be part of the problem but step fully into being the solution. Mankind did already practically reach a sink or swim type scenario. Still (currently) faces the final two minutes on the atomic scientists doomsday clock.

We of wisdom have a natural soul deep obligation to help turn the clock around,
Thus, we continue on, on this path of Solution. Inwardly understanding
All must eventually come back to the universal.
Through a love of wisdom. True philosophy.

Again I say, This is not just a dream, but a living reality.

The harmony, Eternal, True guide, Inner vision and fruit of such a path of self realization. Is here within and just beyond this very moment, was here before you read this, is unseen universal unifying essence in-between, through these words and beyond into the new future. Are you in harmony with the will of this?

Again, your personal discovery, To be or not to be?.

Be Love of/with/to wisdom. Or not be?

wisdom itself. be! Thus true Philosophy, Origin of such! and a new lighted evolutionary Destiny. Or not be?

To not be the New world order/higher world order, A New World Harmony! Or be?

“Just as the rain does not fall only on one part of the world, or one community only,

So too the blessings of the eternal are here for all”.

We live in a virtual cornucopia, we may be a part of this raining down on all mankind and Life, on this bright blue green planet we live on. A safe more protected and prosperous future for all civilized citizens, Why wait until tomorrow? When we only have this moment to live for sure. To be or not to be?

I am just a humble heart, Like you in this. We are all in this together.

I humbly understand all this may simply be information to you?, Until experience this for yourselves and thus behold higher knowledge. (sharing this loving experience)
For as Einstein said.

“Knowledge is experience, everything else is just information”.

We know knowledge is power, Thus with this highest reality experience,
Higher world Experience, all have the power to truly change the world for the better.
The choice is yours to support an old world Individualistic divided world?, Or unite and transition in the Universal State of Earth.

To be or not to be, Surly here is only one wise loving answer. Be?.

1 - "twenty five years ago, can any of you imagine that the phone would be like this now? can take pictures, record recipes, send letters and documents, can send photos? Can display maps, and road routes, even record physical activity how many kilometers you have walked and how many calories you have burned? A telephone that can be used to make presentations and send them to other continents?"

if you had one, perhaps could just talk, yes, and to text was already sophisticated

2 - "Now, can you imagine what this tool will be like in 10 years or 20 years in the future?"

although it might be a bit far fetched to think it may be able to transport you to another dimension, but now for the final question.

3 - If we cant even imagine what 25 years progress might be like, then how can you as People, teachers, or parents give PROVISSION? Which provisions should be given.

carry this over to life, all life, Why U S E, Why Practical Scientific Philosophy, and WPF?

The answer should be clear, This is needed as the Practical Scientific Philosophy, The U S E with WPF, Earth XXI Citizenship, and Civil educators and the unity of all thinkers, also helps ensures healthy correct identity, intellect, mentality and consciousness within humanity able to guide in right provision to give to future generations.

Remember, what is a Leader?

One whom knows the way,

Goes the way,
and shows the way.

Peace be with you. Lest you in individualistic mentality refuse such?.

All is from Origin, ALL!.

Blessings to each of you and your beloved family's.

“with God’s love I love you all”
